

Installation Timeline

Emergency Phones

Kings III receives completed paperwork and builds your customer account. If permits are required, we will apply for and pull all necessary permits.

1

Within **5 business days**, we will call to schedule the installation (typically 8-10 days out, but we can accommodate as needed).

2

On **scheduled installation day**, a Kings III technician will arrive to install your phone(s). Typical install time is 1-2 hours per phone.

3

Before leaving your location, the technician will briefly train you on system operation and testing as well as provide a completion sheet to be signed.

4

Within **1 month**, you will be invoiced. ACH debit available- Email billing@kingsiii.com or call Lisa at 800-354-6473 x2103 to inquire.

5

*Permits will prolong the scheduling of an installation date. Once the permit process is complete, Kings III will follow up to schedule the installation.

*If a permit was required, Kings III will call for an inspection to be scheduled (**typically takes place 1-5 business days later**).

Day 1

Day 1-5

Process is approximately 8-15 days total time on average.
